

10 February 2021

To Whomsoever it may concern

This is to certify that **Niveditha S**, was working as a **Jr. Research Assistant** for All Mind AI (ZRAE Global) from June 15, 2020 to January 27, 2021. During her tenure, I found her to be a competent researcher with extensive professional experience as well as an optimistic researcher.

She values hard work to make research more fruitful. Reinforcement learning, distributed machine learning, unsupervised learning, data warehousing, deep learning complexity, and text data mining are among her primary research specialisations. In order to analyse and summarise in-depth key value points in Machine Learning, Deep Learning, Big Data, and Distributed computing, she conducted several studies and literature searches. She collaborated with a wide range of students and clients to deliver research papers that satisfied their requirements with solid research findings. She conducted a significant amount of experiments, formulating and gathering all of the outcomes, findings, and applications for her research. Additionally, she made sure that the research papers were written and optimised in accordance with the quality standards and guidelines of the specified journal. She actively worked on preparing the proposal and novelties to advance existing research.

She has contributed to the preparation and delivery of numerous high-quality research papers and reports to clients. Kernelized deep networks for speech signal segmentation using clustering and artificial intelligence in neural networks is one of her highly recognised and acknowledged scientific accomplishment.

She is highly committed to setting goals and deadlines for herself to produce top-notch research output. I wholeheartedly recommend her to any university or organisation due to her outstanding knowledge and abilities. I wish her the best of luck in all of her future endeavours and life. If you need any additional information, please get in touch with me at zrae.global@gmail.com or ai.allmind@gmail.com or mando.kishoreabishek86@gmail.com.

Yours Sincerely,
Kishore Abishek
Founder and Technical Director, All Mind AI
